

320 kVA Containerised UPS

The Arun Model UPS0320 Uninterruptible Power Supply is manufactured to International Standards and renowned for its superior performance and reliability.

Based on years of experience, this complete UPS will provide the reliability and performance you need for your critical applications.

24 Hour Support and quick response will give you peace of mind, however with a Mean Time Before Failure of power to the load in excess of 20 Years, you may never need to look at the user friendly LCD panels and even less likely to see inside ?

Features and Benefits

The UPS is supplied complete with the following :

- 4 x 80 kVA synchronised and redundant UPS
- Separate Dual Battery system with each UPS
- Manual By-Pass Switch and Emergency Power Off Switch on each UPS
- Static By-Pass in case of overload
- Input and Output Chokes / Filters
- Fully insulated container, with access doors, lighting, safety equipment and signs.
- Separate oversized Air Conditioning Unit.
- Overall System designed for easy maintenance and servicing – reduces down time and reduces your site risk
- CE Certified
- 24 Hour Contact Numbers
- Emergency Callout
- Wiring diagrams (optional Arun install)
- Commissioning, operator on site training and instruction manual all included.

kVA	Type of Operation	KW @ 0.8 p.f.	Nominal Current	Static By Pass	Manual Bypass	E.P.O.	RS485 inc.?	Upgrade possible
80	Single Unit	64	115.6 A	Yes	Yes	Yes	Yes	Yes
240	N+ 1 Redundant	192	346.8 A	Yes	Yes	Yes	Yes	Yes
320	Maximum Load	256	462.4 A	Yes	Yes	Yes	Yes	Yes

All ratings data based upon operation at up to 40°C Ambient, 1000m.a.s.l. and 60% relative humidity. Above these, derates may apply. kVA Ratings based on 0.8 power factor.

UPS TECHNICAL DATA

Max Output = 320 kVA (256 kWe) 3 Phase at 0.8 p.f.
